### **Half a Century of Harmony: The Calgary Boys' Choir Celebrates 50 Years\***

[Calgary], [March 27, 2024] – Standing on the cusp of a remarkable milestone, Calgary Boys' Choir is thrilled to announce a weekend of celebration in honour of its 50th Anniversary, taking place from May 23rd to May 26th, 2024. This landmark occasion unites decades of singers in the Calgary choral community, bringing together alumni, community members, and current choristers for an unforgettable musical event.

The festivities commence with a three-day workshop for tenor and bass voices, held from May 23rd to 25th. Open to both alumni and local choral community singers, the workshop will be directed by the esteemed Gerald Wirth. Mr. Wirth, currently the artistic director of the Vienna Boys Choir and former Calgary Boys' Choir artistic director (1991-1998), brings a wealth of experience and artistry to guide participants in this unique and collaborative musical experience. The workshop includes an informal social event on Saturday evening, fostering connections and camaraderie among attendees, and the performance of pieces from the workshop in the 50th Anniversary Concert on Sunday, May 26th.

The pinnacle of the anniversary weekend is the celebratory concert on May 26th, 3 pm at the Eckhardt-Gramatté Hall, Rozsa Centre, University of Calgary. Under the leadership of Artistic Director Kathryn Berko, this event features performances by the workshop choir, current members of the Calgary Boys' Choir, and is joined by past directors including Paul Grindlay and Julie Freedman-Smith. Special guest alumni artists, including John Wort-Hannam, add a touch of Country-Folk Canadiana to this extraordinary afternoon.

Following the concert, a reception will be held, providing an opportunity to reminisce with past artistic directors and staff, esteemed guests, and share in the memories through photo and memorabilia displays. It promises to be an afternoon filled with laughter, nostalgia, and the joyous celebration of 50 years of musical excellence.
